Doing Business with the Government!

Expanding your business into the federal marketplace can be lucrative, and provide numerous networking and growth opportunities. The Small Business Administration's Office of Government Contracting & Business Development works with federal agencies to award at least 23 percent of all prime government contract dollars to small businesses and help federal agencies meet specific statutory goals for small businesses. In addition, SBA's 8(a) Business Development Program assists eligible socially and economically disadvantaged individuals in developing and growing their businesses.

Seminar will discuss:

- Government Contracting
- SBA's 8(a) Business Development Program
- SBA's HUBZone Certification Program

Attending this workshop can get you started with selling to the government. If you already sell to the government, this workshop can help you with tips to increase success.

The workshop will be held January 18 at 2403 N 41st St E, Muskogee, OK 74403, Building C, Room 100 from 10:30 am to 12:00 pm.
